We've Got Standard Oil

A few dollars invested in our proposition will shortly produce tremendous dividends.

Placer Mines of the Will Smelting Co. Now in Operation

Government experts state that sand, assaying 5c per cubic yard, can by Placer Mining be made to yield a profit. We have 6,000 acres, assaying from 60c to \$57 per cubic yard. This is the richest placer mine in the world. We offer a limited amount of stock at 60c a share, (par value \$1.00), for a short time only. Standard Oil Stock sold at 75c at the start, and now sells around \$700. Here is an opportunity to do as well. Write at once for details, or better still, wire us your reservation at our expense.

Tidewater Contract.

Tidewater Contract.

The bill sets up various contracts with competing concerns, by which competition has been eliminated, among others a contract between the Standard off Company and the Tidewater Oil Company and the Tidewater Oil Company, whereby the Tidewater companies are limited to 11 1-2 per cent of certain husiness in Pennsylvania and New York, and the Standard Oil Company to receive 881-2 per cent of the business, the Standard Oil Company causanteeing the Tidewater company \$500,000 per annum profits, thereby eliminating all competition between the Tide is contract was made in 1853.

Contract Pennsylvania Road. The bill alleges a contract mdae with the Pennsylvania Railroad Company in 1884, which was in existence until 1906, in which it was agreed that the rates for the transportation or oil should be fixed by the railroad company, with the advice and concurrence of the Mation. Transit

Restraint by Control of Pine Lines

It is alleged that the Standard Oil Company and the Standard Oil Trust have had control of and monopolized the carrying business by pipe lines in and from all the oil-producing regions of the United States except Texas, Louisina and California, that they are common carriers and that they have refused and falled to perform their duties as common carriers of oil; that they have coharged excessive and unreasonable rates, and rates which were discriminatory in favor of the Standard Oil Company; that they have refused to furnish equal facilities for receiving and delivering oil of independent shippers and tenners by falling to deliver said oil at the stations along their line where the said shippers and refiners desired said oil to be delivered, that they have refused to transport oil belonging to officers than the defendants and their associated companies, and since the month of August. 1006, have refused to transport oil of others except in such large quantities as to completely prevent independent producers and refiners of oil from using their carded the remain of August. 1006, have refused to transport oil of others except in such large quantities as to completely prevent independent producers and refiners of oil from using their service: and that they have forced sixteen independent refiners mow doing business in Pennsylvania and Ohio, and procuring their crude oil through the Standard Oil Company, thereby climinating their competition. This command the standard Oil Company to reduce the amount of crude oil which it would sell to the independent refiners adiabated to competing pipe lines, thereby chain the standard Oil Company to reduce the smooth of crude oil which it would sell to the independent refiners and the standard Oil Company to reduce the smooth of crude oil which it would sell to the independent companies of human companies as independent companies, paid high prices or premiums on oil in limited territories adiacent to competing pipe lines, thereby taking away the Restraint by Control of Pine Lines

Railroad Discriminations.

Railroad Discriminations.

It is alleged that one of the principal instrumentallities through which the defendants have been enabled to monopolize the commerce in petroleum and its products throughout the United States has been a system of preferential rates, and rates discriminatory against the competitors of the Standard Oil Company, both in open and published tariffs and by and through secret and unpublished rates, both interstate and intrastate, and by rebates, concessions and preferences granted to the Standard Oil Company and its subsidiary corporations. The bill goes into the details of many of these rates, and shows a systematic discrimination, substantially all over the United States, so that rates from Standard shipping points are very much lower, for the same distance proportionally and peton per mile, than from shipping these of independent competing concerns.
